MILK AND CREAM IN REVOLUTIONARY MINI PACKAGING

Practical and easy to store

A delicious high-quality addition to your coffee

Also available in plant based version

UNIQUE AND SUPER PRACTICAL MINI PACKAGING FOR MILK AND CREAM FOR COFFEE

MINIMILK is a revolutionary mini portion of milk and coffee cream that combines practicality, modern design, and a responsible approach to packaging.

Originally developed for airlines, hotels, and cafés – where hygiene, convenience, and ease of use are essential – it has quickly made its way into retail thanks to its outstanding features. Today, MINIMILK is also available at selected stores as an ideal solution for households.

MINIMILK has gained popularity thanks to its clear advantages:

AN EXCEPTIONAL PRODUCT

- The first major innovation in portioned milk since the 1960s
- Liquid, not powdered – delivering a fresh, authentic milk taste
- Special health-safe foil that preserves milk quality
- Long shelf life, resistant to temperatures up to 24 °C
- Eco-friendly packaging – reduces waste and is recyclable

PERFECT FOR SERVING

- Spill-free opening with easy tear design
- Durable and resistant to damage
- A practical complement to coffee service

SAVES SPACE AND RESOURCES

- 50% smaller volume – compact, space-efficient packaging for easier storage
- 45% less packaging waste – an environmentally friendly solution with reduced impact
- Practical pack sizes – 240 pcs for gastronomy, 30 pcs for retail

MINIMILK is fully tested and approved by airlines, ensuring maximum safety and reliability.
